

Vincewood Dr/Carolyn Lane Customers

RE: Carolyn/Vincewood Water Upgrade Project

Dear Sir or Madam:

Jessamine County Water District No. 1 (JCWD1) is committed to continually improving your water system and to providing the best service that we feasibly can to our customers at a reasonable monthly rate. As such, JCWD1 has acquired federal funding, in the form of a low interest long-term loan, to complete a project will replace and enlarge the existing water mains on Carolyn Lane and Vincewood Drive. This will replace existing 3" and 4" water main with 6" and 8" water main, which will allow us to install fire hydrants in both neighborhoods. In addition, the project will include the installation of new water meters that include the capability to be read remotely. The project is anticipated to cost approximately \$1,500,000.

As you may recall, a public meeting regarding this project was held at the JCWD1 office on February 6, 2020. At that time, JCWD1 told property owners in the project area that they would have an opportunity bring forward any special questions or concerns that are specific to their property, and that is the purpose of this correspondence.

JCWD1 invites you to provide any comments, concerns, relevant information, or special requests regarding your property that may be helpful for our contractor to be aware of when bidding the project. Examples could be the location of any underground infrastructure in your front yard and near the road, such as invisible fencing, septic lines, or irrigation systems, or other items of particular personal importance related to your property.

In order to assist you, a draft version of the project plans is available to download and view from the JCWD1 website (www.jcwd1.org). All special requests or information provided must be in writing. This can be emailed to karen@jcwd1.org, dropped off at the JCWD1 office, or mailed.

Responses must be received by JCWD1 prior to March 4, 2021 in order to be included in the plans and contract documents that will be publicly bid for construction contractors.

We appreciate your help with this project and look forward to hearing from you. Please contact our office with any questions. Thank you.

Sincerely,

Carl Waits, Chairman
